lpk-dev.netlify.app

I design and build end-to-end web products — from system and database architecture to polished frontend experiences and production APIs. 10+ years of experience.

EXPERIENCE

Nov 2025 — Present

Senior Full-Stack Developer

Mekha (mekha.ai)

Building an AI-powered business platform for SMEs end to end. Designing AI workflows for content planning, multi-channel chatbots, image and video ad generation, social publishing and performance analytics with NestJS, React and the Vercel AI SDK.

2021 — 2025

Senior Full-Stack Developer

Paneet Interactive Co., Ltd.

Developing web platforms with Angular, React and Next.js; building REST APIs with Node.js, Express and NestJS; designing systems and databases; and setting up CI/CD with GitHub Actions.

2018 — 2021

Freelance Web Developer

Independent

Delivered tailored websites, backend REST APIs with Node.js and Express, and frontend experiences with Vue.js and Nuxt.

2015 — 2018

PHP Web Developer

Bangkok Web Solution Co., Ltd.

Built web applications with Yii, PHP OOP, HTML, CSS, SCSS, jQuery and JavaScript.

SKILLS

Frontend React · Next.js · Angular · Vue.js · Nuxt · TypeScript · SCSS
