

Ponlawat Koeisuwan

Senior Full-Stack Developer · AI Product Engineer

Senior Full-Stack Developer with 10+ years of experience delivering production web platforms end to end — from system analysis and database design to TypeScript frontends, REST APIs and CI/CD. Currently building an AI-powered SaaS platform for SMEs, designing AI workflows across multiple model providers and integrating social and messaging platforms. Known for turning complex requirements into reliable, maintainable products.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer

11/2025 — Present

Mekha

- Build a multi-tenant AI business platform for SMEs end to end with NestJS, React, TypeScript, Drizzle ORM and PostgreSQL (Supabase), deployed to Google Cloud Run through GitHub Actions.
- Design AI workflows with the Vercel AI SDK across multiple model providers for content planning, multi-channel chatbots and image and video ad generation.
- Integrate Facebook, Instagram, Meta Ads, WhatsApp Business, LINE, TikTok and YouTube with OAuth, webhooks and encrypted credential storage, and prepare platform app-review submissions.
- Develop content-performance analytics and lead and order tracking that connect social content to customer conversations and sales.

Senior Full-Stack Developer

2021 — 2025

Paneet Interactive Co., Ltd.

- Developed web platforms and applications with Angular, React and Next.js, from requirements to production.
- Built REST APIs with Node.js, Express and NestJS.
- Led system analysis and relational database design for new projects.
- Set up CI/CD pipelines on GitHub Actions with automated testing in Jest and Karma.

Freelance Web Developer

2018 — 2021

Independent

- Delivered tailored websites and web applications for clients from requirements to launch.
- Built backend REST APIs with Node.js and Express and frontends with Vue.js and Nuxt.

PHP Web Developer

2015 — 2018

Bangkok Web Solution Co., Ltd.

- Developed web applications with Yii 1, Yii 2 and object-oriented PHP in an MVC architecture.
- Built responsive interfaces with HTML, CSS, SCSS, jQuery and JavaScript.
